

# Food Scrap Diversion and Management – Tip Sheet #8

## Additional Resources

### Want more information?

These organizations host GREAT resources for all aspects of food scrap diversion and composting.

#### **Biocycle**

Keep up to date on the most recent science, policy, and case studies.

[www.biocycle.net/category/food-waste/](http://www.biocycle.net/category/food-waste/)

#### **Center for Environmental Health**

This site hosts a toolkit of procurement recommendations, alongside a database that describes types of food ware products with detailed information about biodegradable and compostable types.

<https://ceh.org/products/foodware/>

#### **Center for Environmental Technology**

Guidance on diverse food scrap diversion techniques include source reduction, food donation, hauler contracts, restaurant diversion, and more. The organization also gives technical assistance for a fee.

[wastedfood.cetonline.org/toolbox/](http://wastedfood.cetonline.org/toolbox/)

#### **Composting Association of Vermont**

Find vetted resources on topics such as soil and water health, compost for stormwater infrastructure, training series for community composting, events, and food scrap art.

[www.compostingvermont.org/](http://www.compostingvermont.org/)

#### **Grow More, Waste Less**

A compost trainer local to the Upper Valley, bi-state region, Cat Buxton hosts resources on backyard and school systems.

[www.growmorewasteless.com/resources](http://www.growmorewasteless.com/resources)

#### **Institute of Local Self-Reliance**

Explore a map of community composting, find public educational materials free to use, listen to a podcast about composters, find compost training, read about policy, and more.

<https://ilsr.org/composting/>

#### **NHDES Waste Reduction and Diversion**

Learn about the current and changing permitting requirements in the state of New Hampshire. Also read about New Hampshire's plans for solid waste management and the state working group.

[www.des.nh.gov/waste/solid-waste/waste-reduction-and-diversion](http://www.des.nh.gov/waste/solid-waste/waste-reduction-and-diversion)

#### **On Farm Composting Toolkit**

For farmers and communities looking to collaborate for food scrap diversion with information on the science, design, and social coordination. This program includes NH farms in the Upper Valley Lake Sunapee region.

[www.onfarmcomposting.org/](http://www.onfarmcomposting.org/)

#### **USEPA Sustainable Management of Food**

Understand the history, the success stories and challenges, and toolkit on topics such as social marketing and preventing wasted foods, and composting.

[www.epa.gov/sustainable-management-food](http://www.epa.gov/sustainable-management-food)

**Or contact UVLSRPC** at [info@uvlsrpc.org](mailto:info@uvlsrpc.org) We'll answer questions or direct you to the right place.

November 2023. A program of the Upper Valley Lake Sunapee Regional Planning Commission  
Providing technical assistance on food scrap diversion from landfills.

\* Funded by USDA Solid Waste Program
